

BACK TO SCHOOL

COVID-19 REMINDERS

1

FACE COVERING REQUIRED

Face coverings are required for all students and staff. There will be times students can social distance and remove face covering, but face covering is the default.

2

TEMPERATURE CHECKS

Parents should take their children's temperature daily before school and keep students home if they have a temperature over 100° F. Teachers will do a temperature screening each morning and students with a temperature will sent home.

3

STAY HOME WHEN SICK

It is more important than ever that students and staff members stay home when they are sick or asked to isolate or quarantine. After a fever students/staff must be fever free for 72 hours to return.

4

REPORT TO YOUR PRINCIPAL

Immediately report to the building principal if your child has any of the following symptoms in the past 24 hours: chills, sweats, cough, shortness of breath, difficulty breathing, chills, muscle pain, headache, sore throat, fever, new loss of taste or smell. Immediately report if your child or anyone with whom they have been in contact has tested positive for COVID-19, or if they have been asked to self-isolate.

5

NO VISITORS

Typically we love visitors, but we want to do all we can to reduce traffic in our buildings so visitors will not be allowed, unless special arrangements are made with the principal and added screening is arranged.

6

HAND WASHING

Please help us emphasize to your children the importance of hand washing or use of hand sanitizer.
