eLearning Flex Day

Monday, November 4, 2019

Monday, March 16, 2020

- Allows us to "practice" for inclement weather days
- Using an eLearning day for cancellations does not extend our school calendar
- It allows for professional development opportunities for our teachers
- It gives our students a real world, college ready experience

HOW

- Students will use Canvas, our Learning Management System, to access their eLearning curriculum

- Our student's Canvas accounts are linked to their School Google id's, so they just have one place to login

- Your teachers will be sending home information, including your student's credentials

Tips & Tricks.

Helpful Tips

- Make sure no one is logged into a Google account on your home computer.

Tips & Tricks.

Helpful Tips

Once you confirm no other family member is signed into to Google or Gmail, browse to
